10. Technical Inspection

a. Machines must be presented to the Technical Official at the times stated. Motorcycles should be in a race/practice ready condition displaying the numbers allocated for the meeting in the correct style and size. The relevant technical control card must accompany the machine through the technical inspection..

Participants must present themselves to the Technical Official wearing their protective clothing, boots and identification disc. They must also bring helmet(s), visors and gloves for checking by the Technical Official. Riders must use a helmet bearing the current ACU Gold Stamp. A rider or passenger from another country holding a licence endorsed by his/her FMN and carrying proof of insurance issued by his/her FMN, may wear a helmet without an ACU Approval Stamp but complying with FIM Art. 01.67 (displaying a recognised International Helmet Standard). A machine eligibility inspection will be made during Technical Control. Please bring the relevant Technical Control card, plus machine eligibility certificate for inspection.

b. Technical Control Opening Times: These will be allocated and detailed in the Final Instructions.

c. Re-inspection following an accident: It is the rider's responsibility to ensure that following an accident:

- His/her machine, helmet and clothing are re-presented to, and approved by, Technical Control before further use at the meeting
- He/she is passed fit by the Medical Officer before taking any further part in the meeting and the associated written confirmation is presented to Race Control. before resuming parading.

d. Technical Requirements: In addition to the requirements of the ACU Standing Regulations and National Sporting Code, the following requirements are applicable to all machines at CRMC run events.

- Safety locking wire shall be annealed stainless steel of between 0.7mm and 1.0mm in diameter. Copper wire shall NOT be used for safety wiring.
- Spin-off type oil filters must be jubilee clipped and wire locked to prevent unscrewing.
- Plastic pipe, braided or otherwise, shall NOT be used for flow-carrying oil lines. It is permitted for breather pipes. All pipe terminations on positive-pressure oil flow lines must use threaded or swaged fittings.
- Section 5.18 "All drain plugs must be tight and drilled and wired into position." shall include fork and suspension unit drain plugs, where practicable.
- Filler caps and filter covers shall be drilled and lock-wired on crankcases, gearboxes and final drive units where practicable.
- Exhaust retaining springs must be 'parallel-wired' to ensure the security of the system and components in the event of a spring failure. This requirement does not apply to springs retaining exhausts to the cylinder head or barrel.
- In addition to the exhaust connection at the cylinder head or exhaust port, there shall be at least two points of retention for each pipe/silencer assembly. This may be accomplished by the use of a safety strap wire loop in addition to a single main mounting.
- All machines must meet the oil containment requirements in the Road racing Section of the ACU handbook.
- Tyre inflation valve caps must be of metal construction
- All Monza fuel caps must be made leak proof and fitted with a secondary means of securing shut. (e.g. an R Clip or lockwire) Ensuring the cap is leak proof can be achieved by soldering the hole up in the brass plate under the cap. A separate breather should be fitted with a non-return valve to allow air into the tank. A flexible pipe with a couple of loops in visibly terminating in a 250ml bottle will also suffice.

11. Practice & Grid Positions

Timed Practice is scheduled to commence at 9.00am Friday from which Race 1 Grid positions will be determined. Orange Vest licence holders and riders competing at the circuit for the first time must complete 3 laps of practice, or gain permission to start from the Clerk of the Course.

12. Method of start

All races will start with the fall of the National flag with engines running (Clutch start). The safety car will not be used, nor will the blue (overtaking) flag.

13. Finish of Races

To be classified as a finisher and included in the results a rider must have completed 75% of the actual race distance. He must also have crossed the finish line, in contact with his machine, on the track and not in the Pit Lane, within three minutes after the winner..

14. Tyres

Slick, tyres, cut slicks, wet weather tyres and tyre warmers are not permitted; full details are in the CRMC eligibility rules booklet.

15. Fuel

It is permitted to use fuel up to 105 RON, 95 MON octane & 2.7% oxygen provided the fuel meets all other ACU specifications. Methanol is only permitted for use in pre 1939 BHR and Lansdowne Series machines. The use of E85 Bio fuel is not permitted.

16. Admission

Each solo rider and sidecar driver will receive 3 passes. Sidecar passengers will receive 2 passes. Licensed entrants will receive 1 pass.

17. Number Plates

Machines in class 11 (Lansdowne) may use black numbers on white background plates to ACU specification.
